**Other Designations in Grading**

NR	Not yet graded	
II	To be graded at the end of the academic year	
P	Ungraded pass	} Not counted in the calculation of GPA (i)
U	Failure	

**II. Grade Point Average (GPA)**

From 2010-11 onwards, the GPA is shown in 3 decimal places. In 2009-10 and before, the GPA is shown in 2 decimal places.

**III. Course Numbering System**

The first four alphabets of the course code indicate the subject (e.g. BIOL stands for Biology). Normally, undergraduate courses are coded 1000 to 4999 while postgraduate courses are coded 5000 to 9999.

A grade "D" in an undergraduate course taken by a postgraduate student is a passing grade in 2009 -10 and before.

**IV. Credit Transfer**

Credits accepted for transfer are shown as number of units recognized but not included in GPA calculations.

Note (i) The grade point average (GPA) of a student's course work shall be computed by dividing the total weighted converted points for courses taken by the total number of units attempted (from courses with converted points) inclusive of courses failed, where the weighted converted points are converted points multiplied by the number of units of the course concerned. Courses with failure grade shall not be counted towards the total number of units earned by a student. The units of courses repeated/retaken due to failure shall count only once in the total units gained by the student.
