Dear Panel,

RE: Support for Celine Aldenhoven's application to Join the Hong Kong Laureate Forum

I am writing in my role as lead for the main supervisor to offer my full support for Celine's application for the Hong Kong Laureate Forum. Celine has made an excellent start to her DPhil studies and is ambitious in her plans to develop her expertise in developing digital solutions.

Celine is developing the evidence base for an app-based intervention to support the long-term management of hypertension following hypertensive pregnancy. She consistently demonstrates excellence in her studies and has demonstrated a lasting interest in developing innovative digital interventions. I believe that she would benefit greatly from this opportunity to learn from and interact with leading experts as well as excellent peers, and I wholeheartedly support her application.

Yours sincerely,

A handwritten signature in cursive script that reads 'K. Tucker'.
