Certificate of Completion

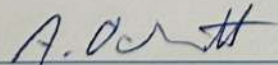

Presented to

Itumeleng Zosela

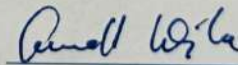

For completion of

Next Generation Scientist 2023

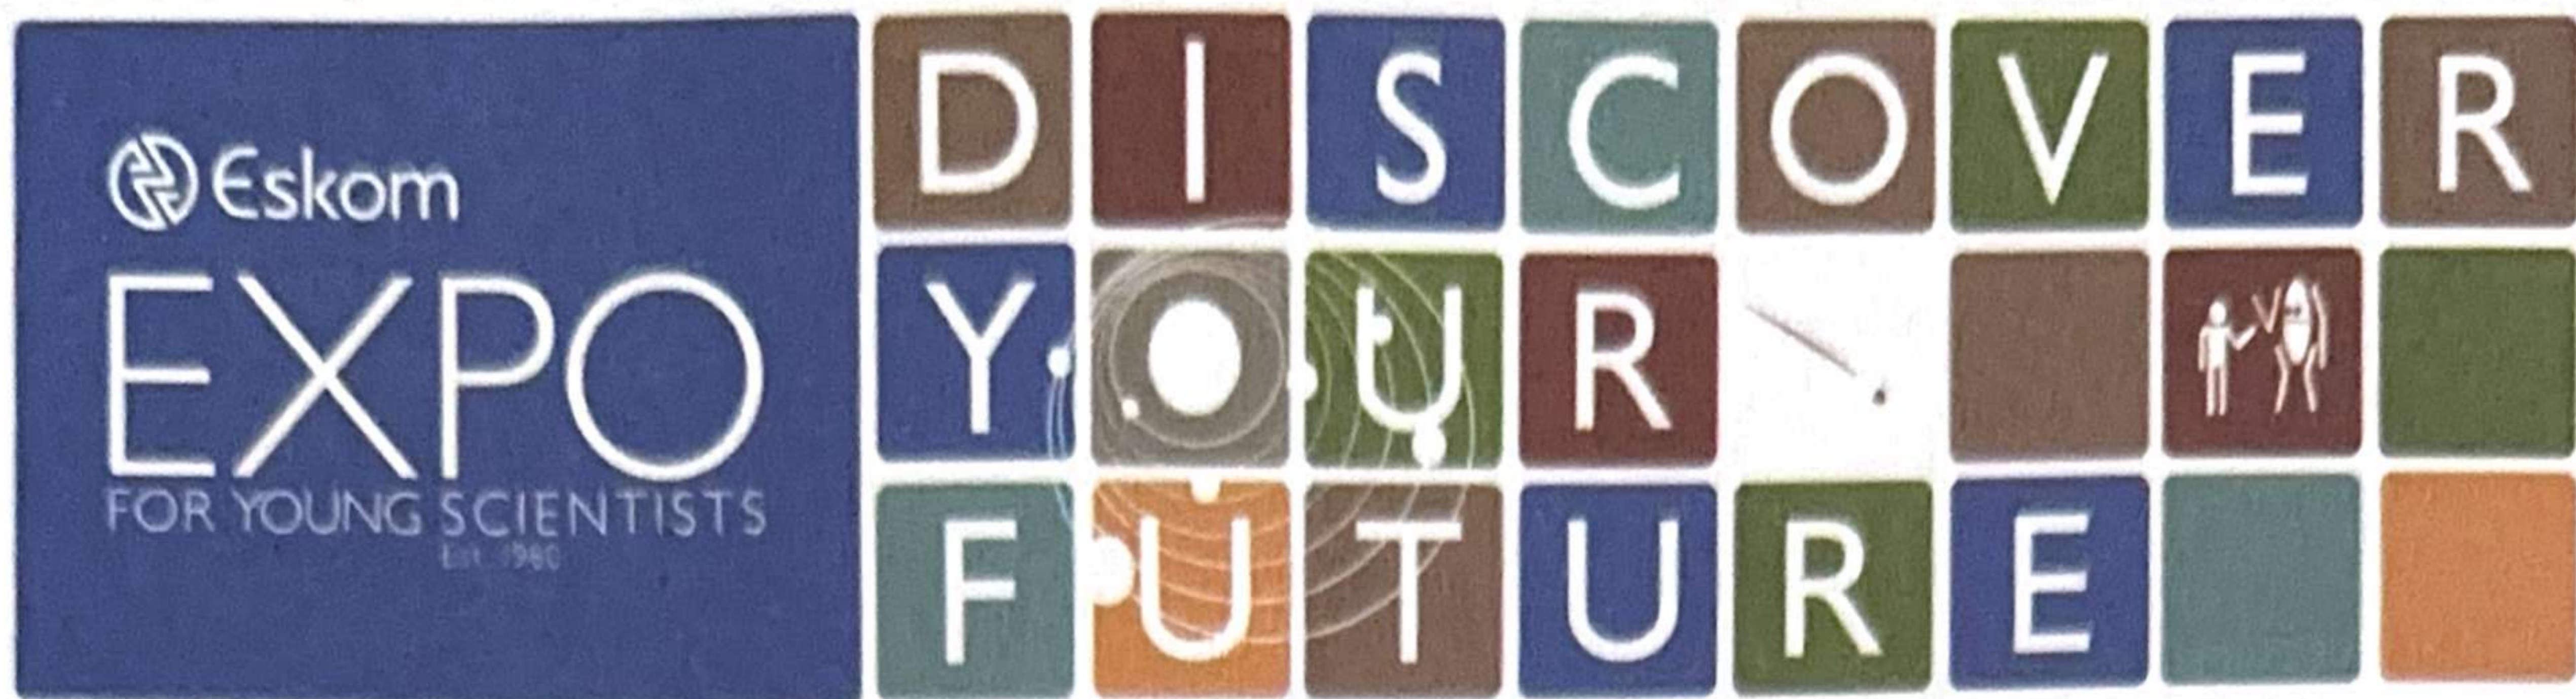

The Next Generation Scientist Program is a joint Novartis and University of Basel research internship program for talented and motivated research scientists from low- and middle-income countries. This certificate confirms an active participation of above named candidate in a structured and interactive 3-month learning curriculum on Pharmaceutical Research and Development topics, including Health Systems, Ethics, Drug Targets, Drug Regulations, Technical Drug Development, Safety and Clinical Trials as well as an applied leadership and communications training.
