Dear Alexandra,

PhD in Chemistry

Congratulations! I am pleased to inform you that the recommendation for the above award has now been approved on behalf of the Divisional Board and Senate.

As you have now successfully completed your degree programme, your name has been passed, by the Quality Assurance and Compliance Office, to the Congregations team and they will be in touch in due course. To find out more information about Congregations please visit the following link: <http://www.kent.ac.uk/congregations>.

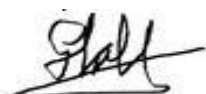

Once your qualification has been conferred at the Congregations ceremony, you will be entitled to use the rights and privileges of the award (as set out in General Regulations Section IV <http://www.kent.ac.uk/regulations/Regulations%20Booklet/generalregs.html>).

Please note that if you have an outstanding ancillary debt (parking, accommodation, etc.) you will not be allowed to attend the graduation ceremony and will receive your award in absentia.

We hope you had a good experience studying at the University of Kent and hope you will remain in contact with the School as one of the University's Alumni. Please see the following link for more details: <http://www.kent.ac.uk/alumni/>.

Wishing you all the best with your future plans.

Yours sincerely

Dr Gurprit Lall

Director of Graduate Studies and Postgraduate Student Experience
Division of Natural Sciences
