

UNIVERSITY OF VETERINARY AND ANIMAL SCIENCES, LAHORE
Department of Epidemiology and Public Health

TO WHOM IT MAY CONCERN

It is my immense pleasure to provide a recommendation letter for Munibullah. He is presently student of M.Phil. Epidemiology and Public health for 4th Semester, Reg. # 2012-VA-530 at the department of epidemiology and public health. I have found him very consistent and hardworking student.

Mr. Munibullah has good practical skills about Epidemiological study designs like cross sectional study, case control study, cohort study and clinical trials. During his study, he has visited different hospitals to conduct surveys about different diseases like Rabies and Dengue in the territory of Lahore & Swat. He is outstanding in conducting surveys. He was enthusiastic to cure the sufferings of animals. For this, he regularly & voluntarily performs duties at UVAS Outdoor, Indoor, Pet Centre and Outreach Hospitals with the aim of learning and enhancing his skill. His approach towards Epidemiological studies was remarkable. He has sound knowledge and field experience in different Epidemiological techniques in animal's population.

Mr. Munibullah is an intelligent, research-oriented, and diligently hardworking student. He has skills to run research projects individually and confidently. He has demonstrated an outstanding performance during his education. He has good command over both written and verbal communication skills. His depth of knowledge, communication skills, commitment to complete tasks, and capability to work in a team are some of his potentials.

Mr. Munib's M.Phil research is entitled as "**Incidence of Animal Bite Injuries in three Tehsil Headquarter Hospitals of District Swat.**". He has performed excellent at each and every step of his research work. Being a faculty member, I am confident of his innovative mindset and independent work ethic.

Mr. Munib bears an excellent moral disposition am happy to answer any further queries.

Regards,

Dr. Mamoona Chaudhry
