Office of the Provost <prvt@cityu.edu.hk>

Fri 6/03/2020 3:15 PM

To: All university faculty, staff and student <hidden-list@cityu.edu.hk>

In view of the current dynamic development of the novel coronavirus outbreak and with the health and safety of our staff and students as our top priority, the University would like to announce the following updates on the arrangements for teaching, learning, and assessment for the remainder of Semester B 2019/20.

1. **Continuation of CityU-Learning.** Online teaching will continue to be delivered in a real-time interactive format through Zoom via Canvas until the end of Semester B 2019/20.
2. **Assessment.** Final examinations will be conducted online during the examination period from 11 to 23 May 2020. Under exceptional circumstances where in-hall examinations have to be held, academic units will inform students accordingly. The Office of the Provost will issue guidelines to the academic units soon to provide advice on the preparation, design, and monitoring of the online final examinations. Course leaders will update students on the adjustments of assessment tasks as soon as possible, if any.
3. **Course Grading Arrangements.** The University will be offering students the option to apply for a change from letter grading to pass/fail grading for up to 6 credit units of courses taken in Semester B 2019/20. Details on the application process will be announced soon.
4. **Special Arrangements.** For laboratory sessions or other course-required components which cannot be delivered in an online mode, respective Departments will inform students of the planned arrangements for these sessions. Research postgraduates should discuss their study plans with corresponding supervisors.

Thank you again for your understanding and cooperation under the current difficult situation. Together we will overcome the challenges ahead.

University Announcement: Online Teaching and Learning Activities

Office of the Provost <prvt@cityu.edu.hk>

Thu 30/01/2020 6:57 PM

To: All university student <hidden-list@cityu.edu.hk>

Dear Students,

In view of the latest development of the novel Coronavirus outbreak, the University has announced moving classroom instruction to online learning from 7 February 2020 until further notice. To ensure the quality and effectiveness of online learning, the Office of the Provost and School of Graduate Studies would like to provide the following details on teaching and learning activities.

1. **Online learning experience.** Teaching will be delivered in a real-time interactive format using Canvas in online interactive mode (live video during your class time and Q&A). If the course is 3 credit units (CUs), a 3 CU-equivalent online activity will be designed, which may consist of lecture, online tutorial discussion (with the tutor present in the forum), and online learning/self-assessment activities. Students who are unable to join the real-time online teaching can view the lecture video and continue to learn.

2. **Time.** Online teaching and discussions/tutorials will be conducted at the regular class schedule as planned. This will help you structure your learning better and will assure that you have no schedule clashes.

3. **Offline learning experience.** Students should have additional tasks to complete, such as off-line learning tasks or reading tasks to meet an overall load of approximately 3 times the number of CUs. Academic staff should supplement online activities by offering consultation or tutorial sessions so that students have the opportunity to seek help when needed.

4. **Preparation.** Instructions for joining the online classroom will be available in Canvas (<https://canvas.cityu.edu.hk>) by 5 February 2020.

5. **Courses with special activities.** For courses with special activities, i.e., courses involving hands-on lab or practical work, individual AUs will make arrangements as appropriate. Research postgraduates should discuss your study plans with your supervisor.

This is an urgent situation and we call for your cooperation and understanding. Together we will overcome the challenges ahead.
