推薦吳迪博士（香港大學）參加第二屆香港桂冠論壇之推薦信

致 第二屆香港桂冠論壇 科學總評審團：

各位專家教授您好！我是大灣區教育融合發展智庫創始人及主席陳錦雲，特此推薦吳迪博士參加於 2025 年 11 月舉辦的第二屆香港桂冠論壇。

吳迪博士是生命科學領域中非常優秀的青年科學家。他長期熱愛生命科學，並分別在中山大學、加拿大約克大學和香港大學取得了生物學的學士、碩士和博士學位。他的碩士研究成果在美國和加拿大的學術會議上做了海報專題展示。他的博士研究成果“Mouse testicular LFA-1 affects Sertoli-germ cell adhesion with unique interactome”正在投稿階段。現在，吳迪博士剛剛從香港大學畢業，留在香港大學從事科研工作。

吳迪博士不僅僅是一個優秀的研究者，更是學術領袖。我與他相識於他擔任香港大學研究生會會長期間。他帶領 100 名博士和碩士同學志願服務全體香港大學的研究生，並且取得了非常卓著的成績。其中，他組織舉辦了主題為「後疫情時代的啟示」的致知論壇，邀請到了四位著名的港大教授（分別是香港大學研究學院副院長、李嘉誠醫學院金冬雁教授，香港大學經濟與管理學院院長蔡洪濱教授，香港大學李嘉誠醫學院中醫藥學院院長馮奕斌教授，以及香港大學社會科學學院吳兆文教授）從經濟、生理、心理角度剖析人類在應對新冠疫情時出現的新問題，探求新的解決辦法。此外，吳迪博士也熱心於香港本地的教育和科研發展，積極參加香港本地的青年交流活動。例如 2021 年由龍傳基金舉辦的「Dragon100」青年交流活動，以及 2022 年以演講嘉賓的身份出席了由香港集思會舉辦的「匯聚人才於香港」網上研討會等。

因此，我認為吳迪博士的科研能力、人際交流能力和領導才能非常匹配本次香港桂冠論壇遴選青年科學家的標準。希望各位評審專家可以認真考慮我的推薦。如果需要瞭解更多資訊，歡迎透過郵箱 gbahiedu2022@gmail.com 與我聯繫。

順頌

大安！

18th March 2025

To the Scientific Review Panel of the 2nd Hong Kong Laureate Forum:

Dear Esteemed Professors and Experts,

I am Ronald CHAN, the Founder and Chairman of the Greater Bay Area Education Integration and Development Think Tank. It is my honor to recommend Dr. WU Di for participation in the 2nd Hong Kong Laureate Forum to be held in November 2025.

Dr. Wu Di is an exceptional young scientist in the field of life sciences. His enduring passion for biological studies is evidenced by academic achievements including a Bachelor's degree in Biology from Sun Yat-sen University, a Master's degree from York University (Canada), and a PhD from The University of Hong Kong (HKU). His master's research was presented as poster exhibitions at academic conferences in both the United States and Canada. His doctoral research paper entitled "Mouse testicular LFA-1 affects Sertoli-germ cell adhesion with unique interactome" is currently under journal submission. Having recently graduated from HKU, Dr. Wu continues his scientific endeavors as a researcher at the university.

Beyond academic excellence, Dr. Wu demonstrates outstanding leadership. I became acquainted with him during his service as President of the Postgraduate Student Association of HKU, where he led 100 doctoral and master's students in voluntary services for all HKU postgraduates with remarkable accomplishments. Notably, he organized the Zhizhi Forum with the topic "Enlightenment in the COVID-19 Post-Pandemic Era", inviting four distinguished HKU professors: Professor JIN Dongyan (Associate Dean of HKU Graduate School and Professor at Li Ka Shing Faculty of Medicine), Professor CAI Hongbin (Dean of Faculty of Business and Economics of HKU), Professor FENG Yibin (Director of School of Chinese Medicine of HKU), and Professor NG Siu-man (Faculty of Social Sciences of HKU). This interdisciplinary forum explored new challenges and solutions to COVID-19 impacts from economic, physiological, and psychological perspectives.

Dr. Wu also actively contributes to Hong Kong's educational and scientific development. He participated in the "Dragon100" youth exchange program organized by the Dragon Foundation in 2021, and presented as a guest speaker at the "Gathering Talents in Hong Kong" online seminar hosted by Hong Kong Ideas Centre in 2022.

I firmly believe Dr. Wu's scientific capabilities, interpersonal skills, and leadership qualities perfectly align with the selection criteria for young scientists at the Hong Kong Laureate Forum. I sincerely hope the review panel will give favorable consideration to this recommendation. For any further information, please feel free to contact me at gbahiedu2022@gmail.com.

Yours sincerely,

Ronald CHAN
