

Scientific Review Panel
2025 Hong Kong Laureate Forum

28th March 2025

Dear Esteemed Members of the Scientific Review Panel

Subject: Onyeka Awunor

We are writing to highly recommend Onyeka Awunor for participation in the 2025 Hong Kong Laureate Forum. Onyeka is our 3rd year PhD in Pharmacology student, and we have had the privilege of collaborating with her during her doctoral studies.

Throughout her time at the university, Onyeka has demonstrated exceptional academic performance and a strong commitment to her research. Each term, her supervisor, *Dr Hendrik Van Veen* has provided positive feedback on the progress of her work, and her most recent progress rating has been classified as 'very good.' Importantly, there have never been any concerns raised regarding Onyeka's academic conduct or research progress.

We firmly believe that Onyeka would be an excellent candidate for the forum. Her intellectual curiosity, dedication to her field, and ability to engage thoughtfully in discussions will allow her to contribute meaningfully to the forum. Additionally, participating in such an event would provide Onyeka with invaluable exposure to new ideas, networks, and research methodologies, further enhancing her academic development.

Thank you for considering Onyeka for this opportunity. We are confident that she would make the most of the experience and greatly benefit from it. Please feel free to contact us should you need any additional information or clarification.

Yours sincerely,

Anna Danz
