Honorary Consultant, Department of Medicine, Queen Mary Hospital  
Chief in Cardiology, HKU-Shenzhen Hospital, China  
Assistant Hospital Chief Executive, HKU-Shenzhen Hospital, China

17<sup>th</sup> March 2025

To whom it may concern,

Ref: Dr. Jamie CHEUNG

It is my sincere pleasure to write a strong letter of recommendation for Dr. Jamie CHEUNG to support her application to participate the Hong Kong Laureate Forum as a Young Scientist. Jamie is currently working as a post-doctoral fellow in the cardiology division at The University of Hong Kong. Prior to joining my division, Jamie was awarded the Hong Kong PhD Fellowship for her PhD at the medicine and therapeutics department at The Chinese University of Hong Kong. She also earned her research master's degree in pharmacology at The University of Hong Kong. As well, Jamie is a Canadian registered clinical pharmacist and a Hong Kong registered pharmacist.

Jamie has research interests in aortic aneurysm, pulmonary arterial hypertension and metabolic dysfunction-associated fatty liver disease. She has published in high-impact journals, including the Circulation Research and British Journal of Pharmacology. In addition, she has recently submitted her work to the Frontiers in Cardiovascular Medicine, and her first-author manuscript is currently under revision. She is also the principal investigator of a research project named "Risk Factors Associated with Aortic Aneurysm: A Retrospective Observational Study." Her work has been accepted for oral presentation at the American College of Cardiology Asia 2025 together with Singapore Cardiac Society 36th Annual Scientific Meeting; Singapore; May 9-11, 2025, and the first author manuscript is under preparation.

Jamie has always expressed her interest in meeting other scientists to find collaboration opportunities. Jamie is a delight to work with and shows a strong drive to succeed. She has demonstrated intelligence and common sense to become a clinician-scientist.

Overall, Jamie is a well-rounded applicant with high scholastic potential, and I wish her success in her application. Please do not hesitate to contact me, if any additional information is needed. Thank you very much for your consideration in advance.

Best regards,  
Professor Yiu Kai-Hang

MD(HKU), PhD(Leiden), MBBS, MRCP, FHKCP, FHKAM, FRCP (Edin, Glasg, London)  
Clinical Professor, Department of Medicine, The University of Hong Kong  
Assistant Dean, LKS Faculty of Medicine, The University of Hong Kong
