Study Rate:	Full Time
Principal Supervisor:	Yury Nikolayevsky
Co-supervisor/s:	Vladimir Matveev
Progress Committee Chair:	Pieter Van Der Kamp
Fee Category:	Research Training Program (RTP)
RTP Fee Offset Value:	\$11,000 per annum (Refer to course fee information)

Your course

You can check the details of your course by visiting the [University Handbook](#).

Scholarship details

Your scholarship will start on your course commencement date unless otherwise advised. Please refer to the [Graduate Research and RTP Scholarships - Schedule A - Terms and Conditions](#) for clarification of any details regarding the scholarship.

Your scholarship package consists of:

Stipend support –

Research Training Program (RTP) stipend scholarship with a value of AUD\$34,00.00 per annum (full-time, pro-rata) for 2023¹. This stipend is paid on a fortnightly basis into an Australian bank account. A full fortnightly payment is valued at approximately AUD\$1,303.00.

Stipends are awarded for three years and six months for a doctoral research degree, or 22 months for a Master by research degree. Any candidature undertaken previously towards the graduate research degree will be deducted from the scholarship.

Your stipend expiry date: 05-Aug-2027

RTP Fees Offset –

As a graduate research candidate supported by the Australian Government's Research Training Program (RTP), the Australian Government will offset costs for tuition and support of your studies; this is known as a RTP Fees Offset Scholarship and it is paid directly to the University on your behalf.

The RTP Fees Offset value depends on the field of education of the degree in which you are enrolling. The maximum length of the offset is four years for a doctoral research degree and two years for a Master by research degree. If you are transferring from another research degree, the maximum length includes the time you were enrolled in your previous degree.

You should be aware that the University may charge you the relevant course fee for any extensions to candidature granted beyond this maximum term.

¹ Increased annually by Consumer Price Index (CPI)
